TOURISM AND CULTURE

In 2011-12, the former Ministry of Tourism and Culture's activities were guided by five strategic objectives: enhancing community and regional economic development through tourism and culture; building national and international profile through tourism and culture; fostering a sustainable, prosperous creative economy; protecting Ontario's cultural heritage and supporting a dynamic cultural environment; and strong, diverse communities.

ENHANCING COMMUNITY AND REGIONAL ECONOMIC DEVELOPMENT THROUGH TOURISM AND CULTURE

Ontario's tourism and culture sectors generate strong economic returns for Ontario communities. In 2011-12, the Ministry undertook a number of initiatives to enhance regional economic development in these sectors.

Regional Tourism Strategy

- Continued support of the regional tourism strategy announced in 2009 and allocated \$40 million in ongoing annual funding to the 13 Regional Tourism Organizations (RTOs) across Ontario that are responsible for developing regional tourism strategic plans, developing and implementing regional marketing campaigns, developing tourism products, attracting investments, coordinating activities and building relationships within their regions. The 13 RTOs have made many significant achievements – from impressive seasonal marketing campaigns and valuable research to industry training.
- Provided funding for transition to the regional tourism strategy by investing an additional \$25 million in 2011-12, and committing an additional \$18.75 million in 2012-13.
- Consulted with tourism partners to develop a model for long-term, sustainable funding for Ontario's 13 RTOs.

Investment

- Delivered the 2011 Celebrate Ontario festival and event program which provided almost \$20 million to expand and enhance 233 festivals and events across the province.
- Delivered the 2011 edition of the Tourism Development Fund, which provided almost \$1.5 million to 24 projects to support industry capacity building, new tourism experiences, product development and industry training.
- Supported major events and initiatives such as Luminato, Toronto Honda Indy and the Niagara People Mover.

- Delivered the \$2.75 million commitment in 2011-12 through the Convention Development Fund to help six convention cities attract new national and international conventions.
- Delivered the Creative Communities Prosperity Fund, a \$2.5 million program that provides support for cultural planning in Ontario. Provided expertise to municipalities, First Nations and other organizations to integrate culture into local economic development and community planning.

Research

- Developed a strategic framework for the Ministry to take a leadership role in attracting private sector investment in the tourism industry. The framework involves increased alignment with the Ministry of Economic Development and Innovation, a proactive outreach approach to identifying investment leads, and an all-of-government approach to support development opportunities.
- Aligned and developed tourism policies and activities based on the 2009 *Discovering Ontario: A Report on the Future of Tourism*, the most comprehensive review to date of Ontario's tourism industry. The review presents 20 recommendations within four strategies that together support Ontario's goal of becoming one of the world's preferred places to visit.
- Provided market intelligence for industry stakeholders, including research on historical trends, travel intentions and economic impact used by industry to support marketing, product development, investment, policy and business decisions.
- Provided strategic policy and planning advice on a variety of inter-ministerial initiatives, including the development of the Northern Ontario Growth Plan, Far North land use planning, Northern Ontario Multi-Modal Transportation Study, Guide to Crown Land Use Planning, Management of Species at Risk and their habitat, and several other Crown land and natural resource related items.

BUILDING NATIONAL AND INTERNATIONAL PROFILE THROUGH TOURISM AND CULTURE

Promoting Ontario as an internationally-recognized tourism destination supports the growth of the tourism industry. The Ministry has undertaken a number of initiatives to promote Ontario's world-class facilities, festivals and culture and has hosted a number of events that showcase Ontario to an international audience.

In 2011-12, the Ministry increased Ontario's national and international profile:

Events of National and International Significance

- Hosted the International Indian Film Academy (IIFA) Weekend and Awards in June 2011. Ontario was the first jurisdiction in North America to host the IIFA Weekend and Awards, which were televised to almost 700 million viewers in over 110 countries. The Ministry leveraged IIFA through two initiatives:
 - Collaborating with and funding IIFA-related community events across four municipalities in the Greater Toronto Area. These IIFA BUZZ events reported almost 200,000 attendees, including 17,000 tourists.
 - Co-sponsoring a Global Business Forum as part of IIFA weekend events, which included site visits, panel sessions and over 240 business-to-business meetings between business leaders and academics from India and Ontario.
- Promoted Ontario as a tourism investment destination at Marché international des professionnels de l'immobilier (MIPIM) 2012, the world's largest real estate tradeshow in Cannes, France, and utilized a consulting firm to generate qualified leads before attending the show in order to secure investor leads and on-site meetings.
- Provided support to seven regional planning groups to plan and develop War of 1812 Bicentennial events and activities and linked with key stakeholders and organizations about Bicentennial activities and plans.

65 countries to over 500,000 attendees, contributing approximately \$170 million in economic impact.

- Supported the Ministry of Citizenship and Immigration in piloting the transition to Grants Ontario, an Enterprise Grants Management System designed to streamline grant management while providing the public with a one-window portal for accessing government funding support.

FOSTERING A SUSTAINABLE, PROSPEROUS CREATIVE ECONOMY

Ontario's cultural industries – including book and magazine publishing, film and television production, music, interactive digital media and broadcasting – work to create, produce and monetize creative products. The entertainment and creative

cluster, including the cultural industries, is one of Ontario's fastest growing sectors. The Ministry supports these industries to make them more successful in domestic and international markets.

In 2011-12, the Ministry helped drive innovation in, and competitiveness of, this sector through a number of approaches:

- Worked with the Ontario Media Development Corporation (OMDC), an agency of the Ministry, to promote, enhance and leverage jobs and original content creation through a number of programs and supports, including administering six creative industry tax credits valued at \$226.2 million annually.
- Engaged with partner ministries to align cluster-related policies, including the Ministry of Economic Development and Innovation to promote and attract direct investment in the entertainment and creative cluster, and the Ministry of Citizenship and Immigration to review cluster-related applications to the Provincial Nominee Program.
- Collaborated with key partners to attract private investment in the creative industries through four investment sessions focused on coaching entrepreneurs, facilitating investment and providing strategic networking opportunities.
- The OMDC provided critical support to catalyze the growth of the cultural industries, resulting in a record year for film and television production in Ontario. Provincially-supported film and television projects contributed \$1.26 billion to Ontario's economy in 2011 - a \$300 million increase or 31 per cent over 2010.
- Provided support to the Mission to India, led by the OMDC in partnership with Telefilm Canada, to provide ten Ontario screen-based producers with opportunities to develop new relationships with Indian filmmakers and build the foundation for future collaborations.
- Engaged with the federal government to effectively represent Ontario's priorities and interests, and raise the profile of the entertainment and creative cluster, through several Canadian Radio-Television and Telecommunications Commission proceedings related to broadcasting policy, several Investment Canada cases related to foreign ownership and investment in Canadian cultural businesses and participation in the *Consultation on the Implementation of Canada's Policy on Audiovisual Treaty Coproduction*.
- Worked with the OMDC to deliver the Entertainment and Creative Cluster Partnership Fund and the Interactive Digital Media Fund to support innovative partnerships and content creation in the cultural media industries.
- Worked with the Ministry of Finance and the OMDC to review the process for certification of Ontario Film and Television Tax Credits to improve service delivery.

PROTECTING ONTARIO'S CULTURAL HERITAGE

The Ministry protects and conserves Ontario's cultural heritage and archaeological resources by administering the *Ontario Heritage Act*, investing in community

museums and historical societies and engaging with a wide range of stakeholders involved in heritage conservation.

In 2011-12, the Ministry focused on a number of initiatives to protect our province's heritage:

- Published *Heritage Places of Worship: A Guide to Conserving Heritage Places of Worship in Ontario Communities*, a supplementary resource to the *Ontario Heritage Toolkit*, to assist municipalities, property owners and heritage organizations to plan and make decisions on the conservation of heritage properties that are adapted from places of worship.
- Invested over \$1.5 million through the Museums and Technology fund to help community museums, art galleries, archives and heritage service organizations improve public access to their collections and ensure Ontario families receive the best possible value and service.
- Delivered cross-province Aboriginal engagement sessions and partnered with the Ministry of Aboriginal Affairs to identify strategic approaches to address Aboriginal cultural heritage interests.
- Invested over \$5 million in operating grants to community museums and heritage organizations.
- Continued development of an archaeology modernization initiative, including launching stakeholder consultations.

SUPPORTING A DYNAMIC CULTURAL ENVIRONMENT AND STRONG, DIVERSE COMMUNITIES

The Ministry's investments in municipalities, public libraries, culture and heritage organizations, cultural agencies and sport and recreation programs enhance the activeness, engagement and vitality of Ontario's communities and the quality of citizens' lives, making the province a great place to live and work.

In 2011-12, the Ministry helped build vibrant, active and engaged communities:

- Invested over \$28 million in Ontario's public and First Nations libraries, including \$1 million to the Ministry's library service agencies, the Southern Ontario Library Service and the Ontario Library Service – North, to support equitable access for all Ontarians to electronic information resources. Tourism Competitiveness: Implementation of Tourism Regions

There are now 13 fully-functioning incorporated Regional Tourism Organizations with leadership staff, governance structures and industry committees in place.

RTOs are using existing Premier-ranked Tourism Destination Frameworks, existing and new research and tourism partner input to develop regional tourism plans. RTOs have been:

- Establishing industry and consumer websites
- Adopting branding and visual identities
- Marketing their region
- Undertaking various initiatives such as workforce training, reservation systems, visitor data collection

Many regions are developing new tourism experiences that feature local unique / niche markets including culinary tourism, culture and heritage, multi-use trails, recreational geology, sports tourism, etc.

Further to the Ontario Tourism Competitiveness Study, the Discovering Ontario report identified the establishment of tourism regions and the creation of Regional Tourism Organizations as a key initiative. Support for tourism regions and new RTOs was announced in the 2009 Provincial Budget with \$40 million in ongoing funding to support destination marketing and management in each tourism region once they are established. Treasury Board approved an additional allocation of \$25 million for 2010-2011 and 2011-2012 to support the transition to a regional structure. An additional \$18.75 million was allocated in the 2011 Budget for the 2012-13 fiscal year.

RTOs are also collaborating with OTMPC on its website content featuring tourism regions, on a marketing committee and on a Consumer Insight Research project that will provide the RTOs with access to marketing research information on a pan regional basis which will be used to inform the development of new targeted marketing strategies and products

ITEM DESCRIPTION

The Ontario Tourism Marketing Partnership Corporation (OTMPC) focuses on marketing Ontario as a premier year-round travel destination in order to maximize opportunities in the tourism sector for the overall benefit of Ontario.

OTMPC's mission is to develop and implement marketing programs to grow Ontario's tourism sector year-round by stimulating increased consumer spending and visits, and generating greater partnership participation. OTMPC works strategically, proactively and collaboratively with the tourism industry to market Ontario's tourism experiences and leverage multi-year marketing opportunities and investments in key markets.

OTMPC, in partnership with key stakeholders is committed to growing tourism within the province by increasing provincial, national and international visitors. In 2012-13, OTMPC will focus on enhancing consumer and trade marketing efforts to generate greater economic impact and return on investment from all Canadian, American and international markets.

In 2012-13, OTMPC will also demonstrate its evolution as a result of the creation of 13 Regional Tourism Organizations (RTOs). OTMPC will continue to provide leadership and support to the RTOs as they enhance capacity to promote intra- and inter-regional travel. At the same time, OTMPC will enhance the agency's focus on Canadian, American and overseas opportunities. To promote collaboration with both the RTOs and key stakeholders, OTMPC will implement a new advisory structure to maximize mutually beneficial business practices.

Achieving Marketing Excellence

In the coming year, OTMPC will enhance its investment in market reach while optimizing its investment in production, in part through increased emphasis on social media and a re-design of its Tourism Consumer Information System (TCIS). Investments in evolving the Ontario and international brand and consumer market research will grow understanding of the market outside of Ontario. The launch of major provincial consumer insight research will provide the RTOs with access to detailed consumer socio-demographics to empower marketing plans and tactics. OTMPC remains committed to research-driven marketing, and to encouraging

alignment of RTO marketing efforts that effectively position the Ontario brand for provincial, national and international travellers. OTMPC will also develop a consumer marketing program in cooperation with RTOs and enhance brand awareness generally by continuing to enable Ontarians to share compelling experiences through social media.

In 2012-13, OTMPC will invest additional resources in marketing and market research to attract travellers from those geographic markets prioritized by the Canadian Tourism Commission, namely the core mature markets of United Kingdom, France, Germany and Japan, and the emerging markets of Brazil, India, China and South Korea. Over the coming year, OTMPC will also develop a marketing strategy to expand its market reach aligned to selected key cities identified by Tourism Toronto, including mid and long-haul cities in the U.S. and the capitals of Latin American countries expected to participate in the 2013 International Children's Games, 2014 World Pride and the 2015 Pan/Parapan American Games.

The 2012-13 tactical marketing plan builds on previous strategic investments that focus on the right consumer in a cost-effective manner and create value. OTMPC will continue, for example, to aim precisely at travel-ready American core target segments to reinvigorate interest and create excitement in Ontario travel experiences. Simultaneously, OTMPC will continue to compete against international and national tourism destinations by clearly differentiating the Ontario brand. OTMPC's approach will be to raise the awareness of and emotional connection to Ontario and explore new brand expressions that resonate with consumers. In emerging markets where travel needs are developing, we will continue to focus on tactics to raise awareness of Ontario and build the capacity of trade representatives.

OTMPC will also launch marketing efforts intended to develop Ontario tourism by tapping into the large, new immigrant population, encouraging newcomers to Ontario to expand their experience of the province, and to invite their visiting friends and relatives to come from around the world to experience the tourism treasures Ontario offers. OTMPC knows that the digital world is transforming travel planning and will emphasize a digital media approach to build upon ongoing business-to-business investments designed to persuade international tour operators and consumers that Ontario represents a world class yet affordable destination.

OTMPC cannot outspend other destination competitors like Australia with global broadcast advertising campaigns. Therefore, OTMPC must focus on continuing to deploy a flexible and focused marketing strategy that fits the respective consumer travel purchasing habits. The shift to digital media (web, social media, mobile, search engine marketing, search engine optimization, contests and other promotions) and partnerships with the RTOs, Destination Marketing Organizations (DMOs) and industry organizations will enable the provincial tourism industry collectively to take full advantage of a much wider reach, and persuade consumers to choose Ontario as their next travel destination. OTMPC ads, content, events,

trade and media relations, and partnerships will continue to motivate consumers to share their experiences and in turn to promote Ontario.

Enhancing Industry Partnerships

OTMPC will grow its efforts to collaborate with key stakeholders and the RTOs, leveraging investments to increase economic impact. In addition, OTMPC will implement adjustments to its Tourism Event Marketing Partnership Program and Industry Partnerships Proposal Program to support industry growth and enhancement.

OTMPC will work on a strategy to create a tourism presence at high-traffic locations and events while continuing to work in partnership with the Ministry of Transportation (MTO) to implement a strategy that will improve travel information services as part of the reconstruction/upgrading of the MTO's 23 400-series highway ONroute service centres.

In addition, a new proposed governance structure will allow for greater industry input and engagement into OTMPC programs. In response to the OTMPC governance review, in 2011-12 the Board of Directors approved revised Standing Committees (Executive, Nominations and Governance, Audit, Finance and Risk), as well as an Human Resources subcommittee. New terms of reference were approved to realign advisory committees to include four restructured committees: Northern, RTO, Sector and Marketing Metrics. With insights provided by the new structure, OTMPC will endeavour to optimize collaborations designed to enrich return on investment while generating improved visitation and spend.

Sustaining Organizational Effectiveness

The OTMPC Board of Directors approved a balanced scorecard approach to performance measurement in 2011 that helps define strategic directions for 2012-13. Four major goals include:

- Contributing to economic impact
- Delivering marketing excellence
- Building enhanced partnerships
- Sustaining organizational effectiveness

Each of the goals embraces key performance indicators selected to ensure achievement of the goals is being reviewed quarterly.

OTMPC will realign its tourism marketing services by focusing on online travel marketing activities to meet consumers' travel research preferences through a major redevelopment of its tourism information website, call centre and brochure distribution service.

(1) Lower campaign production costs resulted in an increased ROI.

(2) Anticipating the recovery from the current economic climate will be slow and the reduced ROI can be expected over the several years.

(3) Increased ROI as a result of increased one-time investment of \$5.2 million for television advertising.

(4) US Near Market Awareness Level has declined significantly since 2007/08 mainly due to gas prices, the high Canadian dollar and passport issues and lack of advertising in this market.

(5) Further declines in US Near Market Awareness Level are expected over the next three years as marketing efforts are being focused on the domestic market and trying to keep Ontario residents travelling within the province

(6) Anticipate less OTMPC investment in Ontario market due to incremental shift in international marketing investments and lack of incremental (bonus) allocation for television.

Tourism Planning and Operations Division

The Tourism Planning and Operations Division oversees the accountability relationship between the ministry and its tourism agencies and attractions. The Division promotes and supports the agencies and attractions in their role as tourist icons and local and regional economic catalysts, and works with the agencies to revitalize their products and to mitigate and manage risks on behalf of the ministry. Fort William Historical Park (FWHP) and Huronia Historical Parks (HHP), two of Ontario's premier attractions, are branches of the Ministry which deliver direct tourism programs and services.

Tourism Agencies Branch

The Tourism Agencies Branch manages the government-agency relationship for the ministry's tourism agencies and attractions, acts as a liaison on policy, financial and program requirements between each agency/attraction and the ministry and central agencies, works with the agencies and attractions on revitalization and to increase their long-term sustainability. The branch promotes agency accountability within the scope of broader government policy.

The ministry's six tourism agencies have been established by provincial legislation or regulation to perform ongoing services for which there is a provincial interest. The agencies are:

- Niagara Parks Commission
- St. Lawrence Parks Commission
- Metro Toronto Convention Centre
- Ottawa Convention Centre
- Ontario Place Corporation
- Ontario Tourism Marketing Partnership Corporation.

In addition to these six tourism agencies, there are two tourism attractions (Fort William Historical Park and Huronia Historical Parks) which are branches of the Ministry:

Fort William Historical Park

FWHP is a branch of the Ministry that operates a world-class tourism attraction in Thunder Bay. The reconstructed Fort depicts 19th century fur trade society using living history techniques with particular emphasis on the role played by First Nations, the Métis and the *Canadien*. FWHP stimulates investment, job creation and economic development in Northern Ontario by developing, managing and promoting a diversified menu of historic, cultural and tourism experiences.

Huronion Historical Parks

HHP manages two historic tourist attractions – Sainte-Marie among the Hurons in Midland, a National Historic Site, and Discovery Harbour in Penetanguishene. Both heritage sites have cultural and archaeological resources significant to the people of Ontario and Canada. Sainte-Marie among the Hurons (1639-1649) is a reconstruction, on the original mission property, that depicts the first European settlement in Ontario and the relationship between the Europeans and the Wendat people. Discovery Harbour (1817-1856) presents early 19th century life at the British naval and military establishments, as well as replica vessels and a major summer theatre for public enjoyment. HHP events and programs attract approximately 79,000 visitors a year. Patrons at the theatre and two restaurants number close to 120,000 people annually.

The Ministry manages the infrastructure development commitments of the province's \$300 million capital infrastructure initiative - the Sports, Culture Tourism Partnership Program as well as one-time capital year-end investments.

The Ministry also manages and delivers the Recreational Infrastructure Canada Program in Ontario (RIInC) - a \$390 million federal/provincial infrastructure program intended to provide timely, targeted economic stimulus through investments in existing recreational infrastructure.

Tourism and Culture Agency Repairs and Rehabilitation Capital

Funding allocated in 2012-13 to the tourism and culture agencies and attractions will be used to respond to their priority repair and rehabilitation needs and to address compliance with legislative and regulatory requirements.

In 2012-13, the Ministry will continue to work on the major tourism capital project announced in 2009-10 to construct a permanent berm and secondary ingress/egress at Fort William Historical Park (FWHP). This funding is intended to protect the FWHP heritage and modern structures from future floods and make the site safer for visitors.

Additionally, the Niagara Parks Commission (NPC) will continue with the two year, \$7 million project to replace the existing 40-year old Incline Railway in Queen Victoria Park to create a year-round, accessible transportation system that connects to the Fallsview tourism area.

Sport, Culture and Tourism Partnership (SCTP) Capital

The Sport, Culture and Tourism Partnership (SCTP) Secretariat manages capital funding for projects in the Tourism, Sport & Recreation and Culture sectors. Projects approved under the Canada Ontario Infrastructure Program (COIP) and other provincially funded projects are in SCTP's portfolio. Proponents of these projects include municipalities, First Nations and not-for-profit organizations.

SCTP also delivers the \$390 million Recreation Infrastructure Canada (RInC) Program on behalf of Ontario and Canada. The province and the federal government have earmarked \$195 million each for RInC, for investments in infrastructure in the recreation sector in Ontario. RInC projects are expected to be substantially completed by March 31, 2012 and final payments for them processed by June 30, 2012.

Performance Measures

Performance Measures	2009-10 Achievement	2010-11 Achievement	2011-12 Target	2012-13 Target
Key Public				
Attendance at cultural attraction agencies	4.2M ^(1a)	3.1M ^(1b)	4.0M	4.1M ^(1c)
Year-over-year increase in revenue in Ontario cultural industries ⁽²⁾	N/A	\$1,298.3M	\$5,344M	\$1,336.6M
Year-over-year increase in use of Ontario's public libraries ^(3a)	8.16%		1.00% ^(3b)	

Notes:

(1a) Higher attendance due to Blockbuster exhibits at the ROM, AGO and OSC.

(1b) Actual attendance was 3,121,762. Lower than anticipated cultural attraction attendance figures align with 2010-11 tourism market performance in Ontario. Contributing factors include the G8/G20 Summits, weather, and the higher than average Canadian dollar.

(1c) These figures may change as some agencies may be asked to revisit their attendance targets for 2012-13 in light of budget cuts.

(2) Targets are set for the calendar year prior to the reporting fiscal year due to a lag in the availability of data, therefore 2011-12 targets are for 2010 calendar year data. Cultural industries include motion picture and video production and post-production, sound recording, book and periodical publishing, and performing arts.

(3a) Starting in 2009-10, targets are set for the calendar year prior to the reporting fiscal year. Approximately 320 municipal public library and First Nation public libraries contribute to this performance measure. A number of them submit their data late, and about 100 of them submit information that requires clarification work by the Ministry working with the libraries. In 2010-11, 2008 data is final and available. 2009 data could be final by autumn 2011. 2010 data is gathered beginning in April 2011.

(3b) Library usage fluctuates, with occasional decreases during times of economic growth, and increases that correspond to economic downturns such as 2008-2009.

N/A denotes target was not established for that fiscal year due to measure was neither a "Key Public" nor "Key Internal" performance measure.

OSS will work collaboratively with academic partners and community organizations to develop a Guide with resources to assist communities in their assessments and plans to maximize health, participation and security of seniors.
- As part of Ontario's Strategy to Combat Elder Abuse, OSS will continue to support the Ontario Network for the Prevention of Elder Abuse to better assist victims of elder abuse in communities across the province through better service coordination, training of frontline staff, and raising awareness of where victims can go for help.
- OSS will continue to collaborate with federal/provincial/territorial (F/P/T) governments on joint initiatives in response to Canada's aging population.
- In partnership with community organization, OSS supports seniors with Alzheimer's or related dementias and their families and caregivers by providing wandering prevention resources, promoting community education and awareness initiatives and partnering with local police services.
- The Guide to Programs and Services for Seniors in Ontario continues to be distributed by the OSS province-wide.
